

# Family Serving Families Safely

Covenant Care is committed to being one of the safest places for loved ones who need skilled nursing care. We are proud to join the American Health Care Association and National Center for Assisted Living (AHCA/NCAL) in their #GetVaccinated campaign.

**Our vaccine acceptance rates far exceed national averages reported by CDC.**

**We are committed to protecting the health and safety of our residents and staff.**

Our commitment to safety and protection extends beyond our COVID-19 vaccinations. We supply all necessary PPE and each facility staffs a full-time Infection Preventionist to provide teaching, coaching, and support compliance with infection prevention and control practices.

Our facilities follow extensive two-step cleaning and disinfecting procedures multiple times daily, using EPA approved disinfectants effective against COVID-19. We have provided extensive training to environmental staff and have invested in innovative cleaning solutions, including the use of Microfiber Mopping Systems, Glo Germ, and Victory Electrostatic Disinfection Sprayers.

Infection Preventionists perform frequent observation rounds to facilitate staff adherence with proper infection control principles and provide expert advice and training.

**We proudly provide Point of Care (POC) Rapid Antigen Testing to every employee, every shift, every day.**

Our use of Abbott's BinaxNOW™ POC Rapid Antigen Testing is fast, reliable, and allows us to expand testing access to people who need it. We pre-screen all visitors for symptoms of COVID-19, potential exposure history, and high-risk travel in order to restrict facility entry accordingly.

In addition to our residents and staff, we test all new admissions and vendors that enter our facilities to ensure we protect our facilities from COVID-19 and provide a level of comfort to those concerned about community exposure.

**This POC Rapid Testing occurs immediately on-site and results in just 15 minutes.**

Rapid test results allow us to make "real-time" clinical decisions to protect Residents and staff. Individuals are able to isolate sooner and immediate contact tracing may commence.

**You can feel confident that Covenant Care is the right choice for you and your family member.**
